EDUCATION

St. Aloysius College (Autonomous)   Mangalore, India
Computer Application Bachelors   October 2022 - May 2024
CGPA: 7.88

St. Aloysius Pre University College   Mangalore,India
Science (PCMC) Pre University   June 2019 - July 2021
Percentage: 91%

EXPERIENCE

DevTown | Full-Stack Web Development Intern   Bengaluru,India | March 2024 - July 2024
- Built user-friendly web applications using HTML, CSS, and JavaScript, making them device-friendly.
- Created and maintained apps with the MERN stack. Used React for the front end and connected it with backend services on Node.js and Express, storing data in MongoDB.
- Developed and optimized backend APIs using Node.js and Express to ensure fast and reliable performance.
- Managed databases by handling data requests and ensuring everything stored in MongoDB.

HONEYWELL | CyberSecurity   Mangalore, India | October 2023
- Identified and mitigated potential security threats using Kali Linux for penetration testing and vulnerability assessments.
- Assisted in monitoring network security operations, contributing to a reduction in security incidents.

SKILLS

Programming Languages:	HTML, CSS, Javascript, Typescript
Libraries/Frameworks:	React, Bootstrap, Node Js, Express Js, Next Js, TailwindCss
Tools / Platforms:	Git/GitHub, VS Code, Clerk, Shadcn, Postman
Databases:	MySQL, MongoDB

PROJECTS / OPEN-SOURCE

StreamDocs -RealTime Collaborative Text Editor | Link   *Next.js, Ts, TailwindCSS, Liveblocks*
- Developed StreamDocs, a real-time collaborative document editing platform using Next.js, TypeScript, and Liveblocks, featuring seamless multi-user presence.
- Integrated Lexical Editor for advanced text formatting and implemented GitHub authentication with NextAuth for secure user management.
- Designed a responsive, cross-device interface using ShadCN and TailwindCSS while enabling real-time updates and comment threading for collaborative interaction.
- Deployed the application on Vercel and managed authentication with Clerk.

ThreadSpark AI -Social Media Content Generator | Link   *Next.js, Ts, TailwindCSS, Google AI*
- Created ThreadSpark AI with Next.js and Google Generative AI, enabling automatic content generation for Twitter, Instagram, and LinkedIn.
- Implemented secure user authentication and account management using Clerk.
- Developed a points-based system for content creation and responsive UI with Tailwind CSS for mobile and desktop compatibility.
- Integrated Stripe for subscription management, providing users access to premium features.
